EXPERIENCE

MAY 2022 – PRESENT

SELF-LEARNING

Currently investing heavily in online resources such as Udemy and Coursera. Completed quite a number of advanced development courses and built amazing projects with my knowledge. Please check out my [PORTFOLIO HERE](#).

MARCH 2023 – MAY 2023

SOFTWARE DEVELOPER INTERN, SINET TECHNOLOGIES (SECONDED TO OANDO PLC)

- Developed numerous APIs and provided comprehensive documentation, gaining hands on experience in building robust and efficient server-side endpoints, ensuring clear and accessible communication for seamless integration and developer support.
- Explored and utilized MongoDB in web applications, becoming proficient in leveraging its powerful features and utilizing handy MongoDB methods.
- Mastered Node.js and Express.js, developing secure and robust backends for web applications.
- Developed a comprehensive understanding of the Software Development Life Cycle, encompassing requirement analysis, development, testing, deployment, and maintenance stages.
- Implemented JWT (JSON Web Tokens) in my projects, gaining a solid understanding of authentication and security mechanisms in web applications.
- Developed and deployed a responsive full-stack web application using React with TypeScript for the frontend and Node.js, Express.js, and MongoDB for the backend.
- Worked extensively with templating using EJS, enhancing my knowledge of dynamic content generation and rendering.
- Acquainted with cloud services, including both on-premises and cloud environments, and gained knowledge of deploying and managing applications in these environments.
- Familiarized with data privacy practices and considerations, ensuring compliance with data protection regulations and implementing appropriate security measures.

SEP 2021 – OCT 2021

SUPPORT TECHNICIAN ASSISTANT, JETCOM

Contributed to the process of troubleshooting and diagnosing computer hardware and software issues and assisting customers with IT-related problems.

EDUCATION

GRADUATION DATE: DECEMBER 2023 (EXPECTED)

BACHELOR OF ENGINEERING (COMPUTER ENGINEERING), FEDERAL UNIVERSITY OF TECHNOLOGY, AKURE.

Relevant Coursework: Introduction to Software Engineering, Computer architecture and organization, Data Structures, Algorithms, Telecommunication principles, Assembly language programming, Control system theory, Cryptography techniques, Engineering mathematics.

JAN 2012 – JULY 2017

WEST AFRICA SENIOR SCHOOL CERTIFICATE, FEDERAL GOVERNMENT ACADEMY, SULEJA, NIGER STATE (CENTER FOR THE GIFTED & TALENTED)

SKILLS / TECHNOLOGIES / LANGUAGES

- Front-End Development, Back-End Development, Responsive Web Design, Agile Development, Software Architectures and Patterns.
- Node, Express, MongoDB, Serverless, Cloud Solutions.
- React, TypeScript, JavaScript (ES6), Git, GitHub, CSS, Styled-Components, HTML5, Tailwind, SASS, Bootstrap.
- Declarative, Procedural, Object-Oriented, Functional Programming.

PERSONAL ATTRIBUTES

- Embrace a culture of empathy, teamwork, and passion in all collaborative endeavors.
- Possess a strong intrinsic motivation for continuous learning and personal growth.
- Demonstrate a genuine passion for enhancing developer productivity through innovative solutions.
- Strive for excellence by maintaining a balance between speed and quality in all projects.
- Possess a natural inclination towards automation, seeking opportunities to streamline processes and increase efficiency.
