Experience

233Developers Inc
Front End Developer

Remote
06/2023 - Present

- Crafted a React web app to facilitate user management and administrative operations for a dating mobile app with over 6000 users.
- Integrated a Customer Support feature within the aforementioned web app incorporating real-time messaging capabilities.
- Deployed error handling mechanisms for message transmissions, delivering error-free communications by providing immediate visual feedback for any failures.
- Engineered an activity timeline feature to track admin actions, encompassing login events, user bans, password changes, and support ticket management activities; facilitated in-depth audit trails for admin operations.
- Built HTML Pages and web app with cross-browser compatibility and screen reader compliance.

SiNet Technologies (Seconded to Oando PLC)
Software Development Intern

Victoria Island, Lagos
03/2023 - 05/2023

- Revamped content generation and rendering using EJS templates, streamlining client-side data processing in a web app.
- Deployed and maintained web servers using Node.js and Express, handling multiple concurrent users.
- Simplified database schema for a SaaS platform using MongoDB Aggregation Pipelines, enhancing system scalability.
- Created REST APIs with detailed documentation using Postman and Swagger UI, incorporating role-based access controls.
- Learned to develop Progressive Web Applications (PWAs) within 1 month, demonstrating rapid skill acquisition.

Projects

Kanban Task Manager App
https://kanban-app-yagz.onrender.com

03/2023 - 04/2023

A full-stack task management app built with React, TypeScript, Node.js, Express, and MongoDB. **Demo login: demo@example.com, password: 123456**. Key features include:

- Drag-and-drop functionality for tasks and columns.
- Task assignment to team members via email addresses with integrated notifications.
- Real-time task status tracking to enhance transparency and collaboration.
- Light and dark mode for customizable user experience.

Outingz Admin Portal
https://outingz.vercel.app

06/2024 - Present

An Admin Portal for managing events, promoters, and transactions.
Demo login: onos@event.com, password: Secret1@
